STUDENT MENTOR PROGRAM

All students admitted through the JEE (Advanced) are assigned an Institute Student Mentor. The Institute student Mentor is a senior Undergraduate student, carefully selected by the Institute for his / her accomplishments and personal qualities. New entrants are expected to acquaint themselves with their mentor who shall be available at the registration venue. Parents/Guardians of students are also expected to meet the mentor and maintain regular contact with the mentor. A letter to parents from the Student Mentor Program is attached for your information and guidance.

COMPULSORY VACCINATION

When you come to IIT Goa, you will be staying in a hostel in close proximity to many other students. Such environment poses a risk of spread of various infectious diseases such as mumps, measles, chicken pox, etc. Therefore, it is compulsory that all students be vaccinated against the following :

1. Typhoid.
2. Hepatitis A and B.
3. MMR (one dose after 15 years of age is essential).
4. Chickenpox (If there is no history of chickenpox).

You are strongly advised to get vaccinated before you come to IIT Goa and produce the vaccination certificates to the authorities upon arrival. Please remember that your registration formalities may be on hold if vaccination requirements are not met.

SCHOLARSHIPS

Merit-Cum-Means, Free Messing, Remission of Fee and Central Sector Scholarships for Top Class Institutions for SC / ST are available for award to the students as per the terms and conditions mentioned in the attached letter. You are advised to go through the terms and conditions and bring all the required documents needed as to apply when online applications are invited.

INFORMATION PERTAINING TO HOSTELS

Which hostel / room is allocated to me?	This will be available with the Officials of IIT Goa Also, the same will displayed on the Notice Board and website.
Taking possession of room	Upon producing the Offer of Admission letter in the allocated hostel
Are hostel rooms furnished?	Furnished with a cot, chair + table and closet. Students need to bring mattress / bedding, bucket, etc.
Possession of motorized vehicle	NOT ALLOWED. Exceptions may be made on medical grounds

With best wishes,

Sincerely yours,

**Assistant Registrar
(Academic)**

3.	Hostel Mess Facilities are not adequate to cater to the guests during admission. They will cater to students only. Parents / guardians and accompanying persons are requested to avail the services of eateries and restaurants in and around campus.

Letter to Parents

Dear Parent/Guardian,

It gives us immense pleasure to congratulate your ward for the success at JEE (Advanced) 2018. We welcome you & your ward to one of the prestigious institutes in India, (IITGoa). As you might know, the IITs have been home to some of the most distinguished personalities on the global map, and we look forward to developing many more such minds that will serve for the betterment of technology, our country and above all, mankind.

We believe that, as well-informed parents, you should be familiarized with both the academic and the extra-curricular lifestyle of students at this institute and get an idea about the various opportunities that your child will have, as well as the underlying responsibilities. The faculty at this institute strives hard to make sure that the academic needs of each of their students are taken care of and to make his/her stay here fruitful. However, there may be times when students require help, academic or otherwise, and we, at the ISMP see to it that these requirements are met promptly and in the best way possible. We would like you to extend your assistance for the same by simply making sure that you know a few things about this institute, to get a general idea of how things function here. This letter is written with the purpose of helping you understand the same.

Institute Student Mentor Program (ISMP)

At this institute, we have respected and well accomplished senior students in their third year of study mentoring all first-year students. These mentors together constitute the Institute Student Mentor Program, aimed at providing guidance and help to first year students. The mentors help the first-year students make a smooth transition from life at home to life at this Institute and help in clearing the hurdles in their path. It would be advisable for you to meet the mentors when you arrive on campus for the orientation. It would be beneficial if you could also stay in touch with mentors during the course of the semester.

Academic Structure

A typical academic year at IIT Goa is divided into two semesters – Autumn Semester (August - November) and Spring Semester (January - April). The curriculum at IIT Goa is based on the credit system. Each course is allotted credits based on the number of lectures, tutorials and lab hours per week.

There is a continuous evaluation by means of quizzes, assignments, mid-semester, end semester examinations and lab work throughout the semester. At the end of each semester, the student gets an SPI (Semester Performance Index) which is an average of the grades in each of the courses he/she had registered for in that semester, weighted with the credits of those courses respectively. CPI (Cumulative Performance Index) is a weighted average of all the SPIs (till date) weighted on the number of total credits each semester.

The importance of maintaining a steady attendance in classes here cannot be understated. It is advised that students do not miss classes due to trips home or otherwise. Also, it is compulsory for all students to attend classes during the first week of each semester, except for genuine medical reasons. When medical problems arise, the student is advised to inform the mentor and the professors concerned if he/she is missing classes. Professors might require medical certificates issued or authenticated by the IIT Goa Hospital or other supporting documents in such cases.

Students who enter this institute every year are some of the best brains in the country. Due to the competitive environment here, we have often experienced cases where students, Who have until now always topped their class, find it difficult to attain grades equal to their expectations. This has often led to one of two extremes: some students face excessive parental pressure, while others simply adopt an indifferent attitude which further reduces their academic performance. We hope that you would encourage your ward to put his/her best foot forward - treat the best effort from his/her side as the objective, rather than the results.

Hostel Life

At this institute, we believe in the overall development of our students. The general lifestyle of students includes a lot of extracurricular activities in the fields of sports, cultural and technical activities, at intra-hostel, inter-hostel and inter-college events. The environment here is very conducive to growth and our institute has some of the best facilities across India. So, we encourage students to take up whatever interests them, and we request you to support them in their choices. There is enough time in a normal IIT student's day to fit in both academics and extracurricular activities without much stress. But, at the same time, it is advised that care must be taken to ensure proper time management such that academics are not neglected because of such activities.

Hostels form an integral part of every IIT students' life. The hostels are well equipped with necessary infrastructure and mess facilities. First year students stay in double sharing hostel rooms with their batchmates.

The transition of your ward, from your loving and caring hands to a completely new and competitive environment of IIT, could occasionally cause adjustment problems in the initial period of their stay. Many students find it difficult getting used to a roommate and hostel life for the first time. Sometimes, cultural, social and language differences further delay the settling in process. As mentors, we help the freshmen have a smooth transition so that this settling in process is as short as possible and your wards feel comfortable in this new setting quickly.

Financial Help

In case you are worried about how expensive it is going to be to put your son/daughter through college, don't be. Help is always given at IIT Goa to those who need it, whether that be academic, financial or any other kind. Scholarships in the form of Merit cum Means and Free Messing are provided to the eligible students that discount the tuition fees and the mess fees respectively. You can find more information about these in the leaflet on scholarships that you will receive shortly or ask your ward's mentor.

Some important issues

Ragging in any form is strictly banned in the campus. The student should report any such untoward incident to his/her mentor immediately. We assure you that it will be dealt with confidentiality and with the highest priority. We believe that you will be reassured by the steps that have been taken by the institute to prevent ragging. Interaction of the freshmen with seniors (other than the appointed mentors) is heavily curtailed during their first month, so they get time to adjust. Strict penalties are very much in place, and mentors are always available to resolve any situations promptly. Rest assured, ragging has vanished from the IIT-Goa campus.

However, it is expected that the freshmen develop a healthy rapport with seniors as they themselves are amongst the brightest in the country and excel at various activities. In fact, a healthy senior junior interaction has been the hallmark of this institute and we would like to maintain that. Our purpose of sharing the above-mentioned problems with you is to make you aware of them. As parents, you need not be alarmed, but mental preparation and precautionary measures would help.

In case you have doubts, or you need to know more about any aspect of IITGoa, please comment below using your Facebook account and we will be happy to answer your questions.

We hope that this information gives you a fair idea about the life of your ward over the next few years. This institute offers a wide range of opportunities for all who wish to learn in the various spheres of life and we hope that he/she has a productive and memorable time in the institute.

Best wishes,

Student Mentor Program

Appendix

Calculation of SPI and CPI:

Suppose in a given semester a student has taken four courses having credits C1, C2, C3 and C4 and grade points in those courses are G1, G2, G3 and G4 respectively. Then, $SPI = (C1 \times G1 + C2 \times G2 + C3 \times G3 + C4 \times G4) / (C1 + C2 + C3 + C4)$

$CPI = (SPI1 \times \text{Credits in semester1} + SPI2 \times \text{Credits in semester2} + \dots) / (\text{Total credits})$

For example, if in a given semester a student has taken four courses having credits 6, 6, 8, and 6 and grade points in those courses are 10, 9, 8, 6 respectively. Then,

$SPI = (6 \times 10 + 6 \times 9 + 8 \times 8 + 8 \times 6) / (6 + 6 + 8 + 6) = 7.62$

If the student has an SPI of 7.62 in the 1st semester worth (say) 32 credits and 8.2 in the next semester worth 36 credits,

$CPI \text{ (at the end of 2nd semester)} = (7.62 \times 32 + 8.2 \times 36) / (32 + 36) = 7.93$

Do note that all semesters have more or less equal credit weightage, so it is important to do well throughout, and not just in final exams, in order to maintain a good CPI.

Grading:

The system of grading here, in most courses, is relative. The highest grade (worth 10 points) is set according to the highest score obtained in the class, and proportionately, grades are allotted to all students. Grading, in integral values out of 10 is done based on the student's performance throughout the semester and goes from 10 to 4 (AA-10, AB-9, BB-8, BC-7, CC-6, CD-5, DD-4),.

Detailed rules can be found in the 'Rules and Regulations' booklet which you will receive subsequently. Parents and students are requested to go through and understand it carefully.
